

Challenge Club Academic Research Project Presentation

Task: Students have been asked to prepare a 2-minute presentation to highlight the findings and outcomes of their academic research.

They will be observed by a combination of their tutor, peers, academic mentor, Head of House or member of SLT.

Whilst students will be given formal feedback and a grade for their academic research project, we also want students to develop presentation and speaking skills. When the students deliver their presentation, please can you make notes on the following areas. This feedback will form part of their overall assessment in the Challenge Club.

<u>Quality of the Visual Presentation</u> (ppt/ resources)	<u>Delivery of the Presentation</u>
<u>Content of the Presentation</u>	<u>Response to any questions asked</u>
<u>Particular Strengths</u>	<u>Areas to Improve</u>

Name of observer.....
