		abusive behaviour will not be tolerated.										
Consider if any additional hazards are created and control measures are required if this activity is undertaken in non-routine or emergency conditions							Review Date (Step 5):					
Assessors Signature:				Date:		Authorised By:				Date:		

Potential Severity of Harm	High (e.g. death or paralysis, long term serious ill health)	Medium	High	High
	Medium (an injury requiring further medical assistance or is a RIDDOR incident)	Low	Medium	High
	Low (minor injuries requiring first aid)	Low	Low	Medium
	Low (The event is unlikely to happen)	Medium (It is fairly likely it will happen)	High (It is likely to happen)	
Likelihood of Harm Occurring				

Risk Definitions	
Low	Controls are adequate, no further action required, but ensure controls are monitored and any changes reassessed.
Medium	Consideration should be given as to whether the risks can be reduced using the hierarchy of control measures. Risk reduction measures should be implemented within a defined time periods. Arrangements should be made to ensure that the controls are maintained and monitored for adequacy.
High	Substantial improvements should be made to reduce the level to an acceptable level. Risk reduction measures should be implemented urgently with a defined period. Consider suspending or restricting the activity, or applying interim risks controls. Activities in this category MUST have a written method statement/safe system of work and arrangements MUST be made to ensure that the controls are maintained and monitored for adequacy.
